

Acoustic Research Unveils New Advanced Power Solutions Product Line

Line includes quick connect, 'clean' power and energy efficient models

LAS VEGAS, NV – January 9, 2012 – International CES, Center Hall, Booth 10404-10415

– Acoustic Research today unveiled their advanced Home Theater and Home Office Power Conditioner product lines that offer some of the most forward thinking power technologies like SpeedPass™, PureCurrent™ and Ecoefficient™. These new technologies will change the way consumers make their power conditioner and surge protector choices. From connectivity options to clean power systems to energy efficient models, these systems are designed to fit in alongside the most high-end home theater systems...not hidden behind them. Other product enhancements include front panel audio/video pass-thru access, reconfigured outlet placement, and dedicated charging ports for today's, can't live without smart electronics devices.

SpeedPass will easily connect all your favorite electronics devices through the front facing access panel which not only gives consumers easy access, but eliminates the mess of tangled wires. PureCurrent technology purifies the dirty power typical of most home outlets, which in turn, improves picture and sound quality from your home theater and protects satellite or cable set-top boxes and networks from power surges. Ecoefficient technology optimizes energy use by automatically powering down computer peripherals when the computer is turned off. Ecoefficient systems also offer charging ports for smartphones, tablets, and portable gaming devices.

“Power technology has to keep pace with the constant advances in consumer and personal electronics. The Acoustic Research line does just that with our new and unique line of power conditioners with latest in connectivity, power saving and purifying technologies...all of which deliver tangible improvements in performance, as well as critical protection for sensitive equipment,” stated David Geise, President of Audiovox Accessories Corporation. “SpeedPass, PureCurrent and Ecoefficient continue Acoustic Research’s tradition of delivering a comprehensive line of products that combines precision engineering with innovative design to produce optimum solutions for our customers.”

AR PW1000 Power Conditioning Surge Protector with Speedpass:

Home entertainment is changing—more people are demanding quick plug-and-play connectivity of portable devices, and reliable Internet-connectivity

for multiple Internet-ready home theater components. The AR PW1000 Power Conditioning Surge Protector with Speedpass is the first power conditioner that meets that demand as it delivers Acoustic Research PureCurrent power conditioning and surge protection, indispensable to any home theater system, while making connectivity a snap with SpeedPass—front panel connectivity for all the most common portable devices. The PW1000's 5-port Ethernet switch also offers reliable, full-bandwidth, wired Internet-access to support rich audio/video streaming

for multiple entertainment devices. The PW1000 will be available in spring of 2012, with a suggested retail price of \$249.99.

AR Power Solutions for Home Theater:

The Acoustic Research 10-Outlet and 8-Outlet Home Theater Power Conditioners protect your valuable home theater components from harmful power surges. They utilize AR PureCurrent technology to purify the dirty power typical of most home outlets so that you get better picture and sound quality from your home theater. And two conveniently located USB charging outlets provide quick access to power for your Smartphone, tablet, and portable gaming devices. Both units will be available in spring of

2012. The ARHT10 (10-outlet) has a suggested retail price of \$69.99 and the ARHT08 (8-outlet) has a suggested retail price of \$59.99.

AR Power Solutions for Home Office:

The Acoustic Research 8-Outlet and 6-Outlet Home Office Power Conditioners protect your valuable home office devices from harmful power surges. AR EcoEfficient technology optimizes your energy use by automatically powering down your computer peripherals when you turn off your computer. AR PureCurrent technology also purifies the dirty power typical of most outlets so that you get optimum performance from your devices. The AR08 (8-outlet) has a suggested retail price of \$79.99 and the

AR06 (6-outlet) has a suggested retail price of \$74.99.

The Acoustic Research brand is marketed by Audiovox Accessories Corporation, a wholly owned subsidiary of VOXX International Corp. (NASDAQ: VOXX).
